

AIR/WATER HEAT EXCHANGERS *SPECIAL MODELS*

. . . Yes, we cool !

In the case of special requirements we develop and build customised *SPECIAL MODELS* of air/water heat exchangers. These can, for example, be units:

- with individual dimensions
- with special housing shapes
- for special technical specifications

Examples of customised air/water heat exchangers:

LWT 800 S - H29

< Air/water heat exchanger with extremely flat housing for switch cabinet internal installation, cooling capacity 0.8 kW

Air/water heat exchanger with special dimensions for base installation and two fans, cooling capacity 1.5 kW >

LWS 1500 - A2

LWT 800 - N3

< Air/water heat exchanger with special housing, cooling capacity 0.8 kW

Air/water heat exchanger for base installation with two fans for high air circulation, 1.5 kW cooling capacity >

LWS 1500 - N15

LWT 1400 - C25

< Air/water heat exchanger with special dimensions, cooling capacity 1.4 kW

Air/water heat exchanger with special dimensions and axial fan, cooling capacity 1.6 kW >

LWS 1600
