

COMPANY *ABOUT US*

. . . in just a few words: We process sheet metal and cool media

As an engineering firm we constantly endeavour to find innovations and cost-optimised solutions for the machine tool industry in the areas of **special switch cabinet engineering**, **sheet metal designs** and **cooling/air-conditioning technology**.

The products which arise as the result of our collaboration with customers are used all over the world and prove their reliability on a day-to-day basis.

Our passion and our strenght are:

WORKING OUT THE *IDEA* . . .

OPTIMISATION OF THE *DESIGN* . . .

MANUFACTURE OF THE *PROTOTYPE* . . .

PUNCTUAL DELIVERY OF *PRODUCT* . . .

We support you with know-how and flexibility so that together we might find successful solutions for your tasks. Please contact us today - we would be delighted to advise you!
