

SERVICES *CONSULTANCY / ENGINEERING*

. . . we look forward to advising you and designing for you!

Consultancy

Do you need know-how and are looking for solutions in the area of **special switch cabinet engineering**, **sheet metal designs** or **cooling and air-conditioning technology**? Then you've come to the right place since we. . .

- advise you all the way from the idea to the design.
- assist you in the optimisation of the design right through to the manufacture of the prototype.
- support you in continuous development through to the series.
- endeavour to ensure that the product is delivered on time.

Engineering

In order to achieve your products, our employees with years of experience in development and design are on hand for you. We create drawings and plans using cutting-edge 2D and 3D CAD software. Make use of our sound technical knowledge!
